Professional Summary

Frontend Engineer with 3+ years of experience building scalable, high-performance web and mobile applications for startups and international teams. Proficient in React, Next.js, and React Native, with a strong background in state management, API integrations, and performance optimization. Skilled at delivering end-to-end solutions, from architecting SDKs to deploying cross-platform applications.

SKILLS/TECHNOLOGIES

Git, TypeScript, React.js, Next.js, Vue.js, React Native, Node.js, Express, Vitest, Vite, Rollup

EXPERIENCE

Lead Frontend Engineer - **BuildFlux** (Contract)

March 2025 - Present **Lagos, Nigeria** (Remote)

- Architected a **monorepo** for a mobile application, simplifying dependency management, and ensuring consistent development standards.
- Shipped a cross-platform language-learning app with rewards; achieved 99.5% crash-free sessions
- Integrated auth, task submission, and audio-matching APIs; improved task success rate from 82% to 96%.
- Implemented persisted state and role-based route protection, enhancing user experience.
- Built SEO-friendly blog on Strapi with structured data and sitemap; improved organic clicks
- Tech: Next.js, Typescript, React Native, Strapi CMS, Node.js, TailwindCSS, ShadCN, React Query, Zustand

Lead Frontend Engineer - **Zinary** (Full-time)

Aug 2024 - Present **Abuja, Nigeria** (Remote)

- Built framework agnostic Software development kits (SDKs) to enhance user authentication and KYC verification.
- Wrote technical documentation for SDK installation; resulted in improved developer experience.
- Integrated AI powered OCR and face match APIs on a KYC verification system; resulted in accurate verification of users' identities and mitigation of financial fraud.
- Integrated APIs for cropping calendar visualization thereby enhancing informed decision making by the farmers.
- Tech: React.js, Vue.js, JavaScript, TypeScript, WebSockets, Redux, React Query, Vitest, TailwindCSS, ShadCN.

Full-Stack Engineer - **Brentsoft** (Full-time)

Nov 2024 - Aug 2025 **Lagos, Nigeria** (Remote)

- Built a chat application backend, enhancing real time messaging
- Integrated chat backend APIs on a job posting and recruitment application, fostering

communication between recruiters and job seekers.

- Integrated AI powered API on a job management application, enhancing job posting and resume scoring
- Migrated a Next.js 14 JavaScript codebase to Next.js 15 TypeScript codebase, which resulted in a type safe application, fast build time and server actions security.
- Tech: Next.js, TypeScript, Node.js, MongoDB, REST API, Redux, WebSockets, TailwindCSS, ShadCN

Frontend Engineer - **Techtink** (Full-time)

Nov 2023 - July 2024 Abuja, Nigeria (Remote)

- Collaborated with the backend team to integrate API for real-time inventory updates, leading to a 100% reduction in stock discrepancies on an ERP application.
- Collaborated with the QA team to identify and resolve bugs, leading to a more reliable web app
- Integrated APIs on a School Management application, resulting in efficiency in managing academic performance of students.
- Tech: Next.js, React.js, JavaScript, TypeScript, REST API, Redux Toolkit, Material UI.

Frontend Engineer - **Xtratech** (Full-time)

Feb 2023 - Sep 2023 Abuja, Nigeria (Remote)

- Developed a unified transactions monitoring portal for different Agents and Partners with real time data visualization, resulting in increase in efficiency for financial analysts.
- Developed 2 user friendly web applications for ticket orders, resulting in a 90% increase in online sales.
- Improved websites performance by optimizing code and reducing page load time by 45%, resulting in a 20% increase in user engagement.
- Tech: React.js, JavaScript, TypeScript, React Query, Redux Toolkit, REST API, Recoil, Axios.

EDUCATION AND CERTIFICATES

Cyfrin Updraft, *Blockchain Basics* (Aug 2025)

Tai Solarin University of Education, *B.Sc Economics* (Feb 2014 - Nov 2017)
